Notice of Funding Opportunity: Nonprofit Security Grant Program 2022

Application Components

Through Egrants, you will provide WEM with detailed information about your project that will be used to make a funding decision. Questions on what is expected in each section can be directed to the Program Manager listed on page one of this document.

Information provided in this application may be cited in WEM reports or press releases and will likely be used in reports to federal funding agencies or other stakeholders. Plain language that clearly describes the intent of the project is most effective.

1. Main Summary

This page asks for information about your agency and the individuals responsible for the application and grant award. When identifying individuals involved in this grant, you may not list the same person as project director and financial officer.

- The Signatory is the highest elected official. (example: Mayor, County Board Chair, Tribal Chair, etc.) For a non-profit this would be the Board President
- The Financial Officer – Person at the applicant agency who is responsible for financial reporting.
- The Project Director – Person at the applicant agency who is responsible for the project and for programmatic reporting.
- An Alternate contact may be added to the application. This person is one that can and should access the application to complete required tasks such as modifications and reports, in the absence of the Project Director. This person should have knowledge of the project and authority to speak on behalf of the organization in the absence of the Project Director. If possible, we encourage the Project Director to list an alternate on the grant.

In the Brief Project Description text box, please describe your project. A suggested format is included for your convenience:

“Funds will be used by the (your agency name and others involved in the project) to (describe what funds will be used for and who will be involved). The (what - equipment, training, project, pilot, etc.) will (describe the specific goals you hope to achieve – how will the project or equipment improve safety in Wisconsin?).”

There are many required fields on this page so if you encounter problems, please check online help by clicking the floating HELP button.

2. Approval Checklist

Answer Yes, No, or N/A (not applicable) to each question.
3. **Performance Measures**
   Please open this section and change the page status to Complete; then SAVE the page. Performance Measures will be identified and collected during post-award reporting rather than through this funding application process.

For each category used, enter a justification that describes how the items in that category will be used during the course of the grant period. It is important that you include specific details for each budget line item, including cost calculations.

Only personnel costs of the agency applying for the grant funds should be included under “personnel.”

   **Employee Benefits:** Employee benefits for grant-funded personnel include FICA, Unemployment Compensation, Health Insurance, etc. and amounts budgeted should be based on actual known costs or an established formula. Employee benefits are for the personnel listed in the budget and only for the percentage of time devoted to the project. Employee benefits on overtime hours are limited to FICA, Workers’ Compensation, and Unemployment Compensation.

Equipment is defined as items used for prevention, emergency response, and recovery operations. Your budget must match previous federal application, if not this will require FEMA’s approval.

**Supplies and Operating Expenses:** Eligible expenses under this category are supplies/consumable items as approved by FEMA necessary to carry out the project.
