SLCGP Cycle 2 Funding 2023 NOFO

A. PROGRAM DESCRIPTION

The Infrastructure Investment and Jobs Act (IIJA) established grant funding through the State and Local Cybersecurity Grant Program (SLCGP) to award grants to eligible entities to address cybersecurity risks and cybersecurity threats to information systems. The SLCGP provides funding to state, local, and tribal governments to improve their cybersecurity capabilities. Administered through the federal Department of Homeland Security's (DHS) Cybersecurity and Infrastructure Security Agency (CISA), the program aims to help state, local, and tribal governments improve their cybersecurity posture and better protect their networks, systems, and data from cyber threats.

In Wisconsin, the SLCGP is administered by Wisconsin Emergency Management (WEM) and the Division of Enterprise Technology (DET). Grant funding is available to counties, tribes, municipalities, school districts, utilities, and other public entities as part of a competitive grant process. For this cycle the grant funding must be used on cybersecurity-related activities, limited to the purchase and installation or activation of multifactor authentication (MFA), managed detection and response (MDR), endpoint protection and response (EDR), and extended detection and response (XDR).

For additional information or questions, please reach out to the primary contact as listed in [section G](#) of this document. The grant manager for this funding opportunity is:

Grant manager: **Marc Couturier, SLCGP Grant Manager**
Phone: **(608) 590-9112**

Provide your entity type: county, tribe, municipality, school district, utility, or other public entity. If other public entity, please specify the entity type.

(vi) **Community Profile**

Is the applicant a rural community?

A rural community is defined in 40 U.S.C. 5302(17) as “an area encompassing a population of less than 50,000 people that has not been designated in the most recent decennial census as an “urbanized area” by the Secretary of Commerce.”

(vii) **Organizational Structure & Resources**

(viii) **Project Type**

Select your project type below. Eligible projects activities include multi-factor authentication (MFA), managed detection and response (MDR), endpoint detection and response (EDR), extended detection and response (XDR) or a combination of these activities.

MFA is a workforce service that requires users to provide two or more credentials to verify their identity. MFA adds an extra layer of security by providing strong authentication for your cloud, web-based, on-premises, SaaS, and IaaS applications.

MDR services provide customers with remotely-delivered, human-led, turnkey security operations center functions by delivering threat disruption and containment.

EDR is a cybersecurity solution that continuously monitors endpoint devices for malicious activity, using advanced analytics to detect, investigate, and respond to threats, such as ransomware and malware.

XDR is a cybersecurity approach that unifies threat data from various security tools across an organization's technology stack, enabling faster and more efficient threat investigation, hunting, and response.

(ix) **Project Narrative**

Describe your program or project in detail, including what objectives will be accomplished. Your narrative must address the following questions:

1. Estimated number of users for multi-factor authentication (MFA).
2. Estimated number of computing devices and types (servers, computers, smart phones, tablets, etc.) for managed detection and response (MDR) endpoint security services (ESS).

(x) **Implementation Schedule**

(xi) **Evidence of Need**

Describe the urgency of implementing the project and potential impacts if it does not proceed.

If the applicant has had a cybersecurity vulnerability scan, please upload the results to the “Required Attachment” section in Egrants. Also include information on impacts from previous cyber incidents; how this investment will address any unmet time-sensitive legal mandates or audit findings; and/or current use of unsupported cybersecurity systems in need of modernization.

SLCGP Cycle 2 Funding 2023 NOFO

Will the proposed project mitigate the circumstances that led to an impactful cybersecurity breach and/or incident?

- Cyber Breach vs Incident
 - **Cyber Breach:** A cyber breach, also known as a data breach, occurs when an unauthorized individual or entity gains access to sensitive, protected, or confidential information. A breach implies that the security controls in place were compromised, allowing unauthorized access to sensitive data.
 - **Cyber Incident:** A cyber incident refers to any event that could potentially compromise the security, confidentiality, integrity, or availability of an organization's information systems, data, or networks. Not all cyber incidents result in a breach, and many can be contained or mitigated without significant harm.

(xii) Program Sustainability

Describe your plan for continuing critical services when federal funds are no longer available.

(xiii) Required Attachments

Please upload the following documents to your application in this section (if needed):

- Quotes, estimates, calculations to support your budget request.
- Multi-entity application information.
- Implementation schedule
- Cybersecurity vulnerability scan.
- Other attachments, as needed or desired.

(3) Submission dates & times

Applications must be submitted in Egrants on or before 11:59 PM on **Friday, May 30, 2025**. Failure to complete the Egrants application by the posted deadline and/or respond to requests from WEM may lead to rescindment of grant funding. Any delays in submitting a returned application will result in a delayed grant start date and a shorter period of performance.

(4) Funding restrictions

The following costs are prohibited; any violation may result in a range of penalties, including suspension of current and future funds under this program, suspension or debarment from federal grants, repayment of monies provided under a grant, and civil and/or criminal penalties.

Additional funding restrictions are identified in [section C\(3\)](#) and [section D\(3\)](#) of this document.

Supplanting is the substitution of existing state or local government funding with grant funds.

Pre-award costs are unallowable. Pre-award costs are any costs that have been incurred prior to notification from WEM of either a fully executed award document or Grant Adjustment Notification (GAN). *A cost is incurred when an action or activity will result in an expense or obligation. This may be, but is not limited to, ordering items, scheduling trainings, reserving hotel rooms, signing a contract, finalizing a purchase order, hours worked.*

Duplication of benefits are prohibited and include any cost allocable to a particular financial assistance award provided for may not be charged to other financial assistance awards to overcome fund deficiencies; to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions; or for other reasons. However, these prohibitions would not preclude recipients from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

(5) Other submission requirements

Only applications successfully submitted in the online grant management system Egrants will be considered and reviewed. To access Egrants, you must be a registered user and have a unique

The Grant Agreement will incorporate this NOFO and all Terms & Conditions as set forth by [section F](#) of this NOFO. The terms are non-negotiable. **Please review the entirety of each document carefully prior to applying for the grant** to ensure that your agency will be able to fulfill all obligations should its application be approved. If your agency can fulfill all obligations, it may wish to start whatever process is necessary to get the authority to sign the Grant Agreement as soon as possible so that, if WEM ultimately approves your agency's application, the Grant Agreement can be signed, and the funds made available expeditiously.

SLCGP Cycle 2 Funding 2023 NOFO

The award document must be returned to WEM prior to the grant performance period start date as indicated in Egrants. Grant awards without signatures will not be considered active until the authorized officials of the applicant agency have signed and returned the award documents to WEM. The grant award documents will explain the total funding amount approved, budget by category, performance period, and fiscal and program reporting requirements and deadlines.

(3) Administrative and policy requirements

The following requirements are non-negotiable as set forth in your agency's obligations with respect to the grant funds awarded. **Please review the entirety of each document carefully prior to applying for the grant** to ensure that your agency will be able to fulfill all obligations should its application be approved. If your agency will not be able to do so, you are encouraged to forego applying for these grant funds.
